

## Federal Communications Commission

We are writing as concerned citizens of the United States. There is so much junk played on the radio stations these days, that it would be a huge disservice to people who have not yet been reached by K-Love Radio if it were to be forced off the air.

I have spoken to many new Christians about listening to K-Love Radio, they are grateful because the music is extremely uplifting and full of love. I hear the heartfelt stories from people whose lives have been changed just from listening to one song that they heard on K-Love. Currently K-Love is getting listeners to get out and vote. Not telling them who to vote for but to vote. There are many pastors and Christians who help people put their lives back together, for example Randy Carlson or Dr. James Dobson.

I have personally called into Randy's radio show to get some advice on a family situation, I found him helpful. I also listen to his marriage Mondays, as do many other listeners! He helps them and prays for them. A lot of these callers are from Los Lunas, Albuquerque, etc...

The more that people try to push God out of the public forums and media, the worse things get. Our youth are growing up with no morals, no discipline, no character, and this has been happening and steadily going down hill since God was removed from the schools. We don't know when He's coming back, but we need to get the good news out to as many people as possible.

If you take K-Love Radio off the air you are going to be responsible for all the lost souls that could have been saved by listening to something from K-Love Radio. We need this station to help bring people back to living by the 10 commandments and having a social conscience again.

Please reconsider this move. K-Love Radio serves not only our local community, but those across the United States. I know I would not want to be responsible for blocking an extremely successful form of fulfilling the Great Commission. People need the good news of Jesus Christ's love.

Thank you for listening.

God Bless you.

Dave & Teresa Banghart
